

Max GlutaCine

Chewable Glutamine Delivery System

**Maximize Your Workouts!†
Get Faster Results!†**

MMSN brings you **Max GlutaCine**, a convenient way to get the Glutamine and Glycine you need to support growth and recovery. Delivering 2g of pure L-Glutamine and 1g of pure L-Glycine per serving, **Max GlutaCine** will provide you with these vital amino acids for optimal results. Research indicates that 2g of Glutamine ingested orally can help support optimum growth hormone secretion. Other research on Glutamine indicates that it is beneficial for overall health of the immune system and intestines. As the most abundant amino acid found in muscle, Glutamine has also been shown to support nitrogen retention a key marker for muscle recovery and growth. Glutamine is involved in more metabolic processes than any other amino acid. Glutamine is converted to glucose when more glucose is required by the body as an energy source. It serves as a source of fuel for cells lining the intestines. Without it, these cells waste away. It is also used by white blood cells and is important for immune function. In hospitals, Glutamine is used for patients that have severe burns to speed recovery and prevent muscle wasting.

Max GlutaCine contains HPLC tested Glutamine and Glycine and is guaranteed to contain no less than 2g of pure L-Glutamine and 1g of pure L-Glycine. Research has linked Glutamine and Glycine to further supporting growth hormone levels when consumed in smaller, more frequent dosages throughout the day. When used in combination with a proper training regimen and nutritional plan **Max GlutaCine** will help support optimal recovery and GH levels making it easier to reach your goal of attaining and maintaining a lean muscular physique. Chew your way to the next level in physique enhancement with **Max GlutaCine!**† you can show off the physique you worked so hard to build. We are confident that once you try **MCL** you'll be amazed at how quickly the weight comes off leaving you looking and feeling great. **MCL** is guaranteed to help you shed pounds and improve your daily functioning and health. Reveal the body you've always wanted with **Max Cleanse & Lean!**†

Size: 180 Wafers
Serving Size: 2 Wafers (6g)
Servings Per Container: 90
Flavor: Citrus Blast

KEY FEATURES

- *GH Release†*
- *Muscle Recovery†*
- *Immune Function†*
- *2g Glutamine, 1g Glycine per serving*

KEY MESSAGES

- *2g L-Glutamine 1g L-Glycine supports GH and recovery processes†*
- *Glutamine supports nitrogen retention for muscle recovery and growth†*
- *Provides vital amino acids to working muscles for maximum performance†*
- *Glutamine supports the immune system for overall health†*
- *Smaller frequent doses of Glutamine and Glycine support GH secretion†*
- *Glutamine supports the intestinal tract for improved nutrient absorption†*

TARGET MARKET

Primary: Those wanting to support GH secretion and recovery. Those wanting to increase muscle mass and those wanting to diet while maintaining muscle mass.

Secondary: Those wanting to support intestinal health and immune function.

RECOMMENDED STACK

- *Max Complete*
- *1-Max-Test*
- *Trenobol*
- *Estrobol*
- *Max Lean Daytime*
- *Max EFA*
- *Max CLA*
- *High 5 / Max Pro*
